Health Board Lifts Ban

The local Board of Health has given the churches permission to hold services again next Sunday and unless something new develops the various services will be resumed at that time. The physicians have discontinued the examination of school children, this morning being the last visit of the doctors to the schools. It is the general opinion that this examination has been a good thing and has demonstrated the value of medical examination in schools. A surprisingly large number of cases of enlarged tonsils and adenoids were discovered, many of which will doubtless receive medical attention. The case of infantile paralysis in Elmore is improving and there are no new cases or signs of any.

Freight Wreck Near Morrisville

The way freight No. 75, going west Thursday afternoon, when one mile east of Tenney bridge, where the track was being repaired by the Morrisville section gang, jumped the rails, throwing six loaded cars and the buggy off the track. The Morrisville way car was stood on end first, then landed on one side, a carload of automobiles shipped to Smith & Tillotson was thrown from the track with others. A carload of peaches billed to H. Waite & Son, which was next to the Morrisville way car, was thrown from the track, but did not turn over. The damage will be considerable. Fortunately none of the trainmen were seriously injured, although all were badly shaken up.

The mail train leaving St. Johnsbury at 3:48 p. m., was held up at the wreck until late in the night, when it returned to St. Johnsbury with the passengers from the train due to arrive here at 7:35. This train arrived here at about 1:30 in the morning.

First Freeze of Season

There was a hard frost Saturday, the first of the season. Ice an eighth of an inch in thickness is reported to have formed on still water. The mountains of the main range and also the Hogbacks were white with snow for the first time this fall. Farmers were busy last week filling their silos and many had not finished when the frost came.

District Nurse Speaks to Club

There was a large attendance at the Woman's Club Monday evening to hear Miss Cora Curtis of Burlington speak on the subject of "District Nursing." Miss Curtis is a ready speaker and is full of enthusiasm over her chosen work. She gave a most interesting and comprehensive sketch of the duties of a District Nurse, tracing the origin and growth of the different Associations throughout the United States and charmed her hearers by the little stories of "Real Life" which she told to bring home her facts. The life of a District Nurse as described by Miss Curtis is certainly a most busy one, but one which is filled with ample reward springing from the grateful hearts of those whom she succors.

After the meeting had adjourned several of the members lingered to talk with Miss Curtis about the ways and means of procuring a District Nurse for it cannot be denied that she is a long felt want in Morrisville, especially during the winter months when "LaGrippe" reigns supreme.

Going to Connecticut

Jacob Perloff, for the past few years residing at Morristown Corners, has purchased a large farm at New Haven, Conn., and will soon move to that place. He will offer his farm near the Corners at auction on Saturday, Oct. 14th, together with a lot of personal property and household furniture. The sale will be positive, as he wishes to close out the entire business. "Jacob" has resided in this country 27 years, 22 of which he was employed by Senator Page as a wool-puller, at which he is an expert. Of late he has been in the cattle business. Several of his children have graduated from People's Academy and by industry and economy he has been very successful since coming to America. To enlarge his business and give his boys an opportunity to engage extensively in farming is the reason he makes the change.

The many friends of Corporal J. M. Kelley will be pleased to learn that he has received his discharge from the U. S. Army.

P. A. Shonio returned Monday from Winoski, where he had been to visit Mrs. Shonio, who is recovering from a recent operation at the Fanny Allen hospital.

Rev. R. D. Cranmer left the latter part of last week for Cleveland, Ohio, where he occupied the pulpit at the First Universalist church in that city. He will speak there again next Sunday.

Mrs. Walter Stenson left Tuesday for a visit at Derby Line with her parents, Mr. and Mrs. A. F. Girard, and in Boston with her cousins, Mr. and Mrs. L. E. Bray. Mrs. Stenson expects to be absent about a month.

Word received Monday announced the serious illness of Cornelia Whitney at Boston. She is the widow of J. S. Whitney, at one time a druggist here.

Senator Page is still at Rutland, taking the "rest cure," which is coming along finely. He expects soon to leave there and take a well-earned vacation.
